

# PRODUCT DATASHEET

## PIP Result

### PRODUCT DESCRIPTION

PIP Result is a concentrated biodegradable floor cleaner, enriched with probiotic bacteria. Upon dilution the product can be applied to all waterproof floor surfaces. PIP Result has an effective triple action cleaning process in order to achieve optimal hygiene:

- 1) Deep microscopic removal of dirt from the smallest impurities of a surface;
- 2) Elimination and prevention of unpleasant smells and odours;
- 3) Introduction of a healthy and safe microflora on surfaces.

### PRODUCT INSTRUCTIONS

**Shake the product before use!**

**General dilution = 0.3% - 1% (10 ml product per 1 litre water; 100 ml product per 10 litres of water for a 1 % solution)**

#### 1. Moist cloths

- Fill a bucket with 1 litre of water
- Add between 3.5 and 10 ml of product
- Moisten a maximum of 15 cloths with this dilution
- Clean the surface with the moist cloth
- Rinsing the surface is not necessary

#### 2. Mops

- Fill a bucket with 10 litres of water
- Add between 35 and 100 ml of product
- Clean the floor with a wet mop
- Drying with a slightly damp mop is recommended
- Rinsing the surface is not necessary

#### Attention:

- This product cannot be used in floor cleaning machines.

### IMPORTANT REMARKS

1. Store the products indoor between 10°C and 45°C; shielded from direct sunlight.
2. Diluted product is to be used within 5 days, any leftovers need to be discarded via the drain.
3. The packaging is not reusable and after emptying and rinsing, it should be removed as per your company's plastic recycling policy

### DANGERS

No special safety remarks or risks are related to this product; detailed safety information can be found on the MSDS file. Emergency phone number: +3270245245.

#### pH Safety indicator

8.5
